

Hello, I am very concerned about the proposal that would allow LPFM to take priority over current FM stations. It could cause us to lose the signal of our favorite radio station, K-LOVE (106.7). K-LOVE is the radio station we had been wanting to have available in our area for years. It is positive and something suitable for all ages. We can play K-LOVE all the time and never be concerned about hearing something inappropriate or embarrassing to anyone. Many of our friends also listen to K-LOVE. I even know of local businesses who play it. It's a station they can play without risk of upsetting their clients by having inappropriate material, in music or commercials. It is family-friendly. How many things can you say that about these days? The loss of K-LOVE in our area would be tragic and disappointing. I would stop listening to the radio completely without K-LOVE. Nothing else is so uplifting and positive. Without positive influences like K-LOVE people are less caring toward each other, less productive at work and home, more stressed - which leads to poor health, parents are less patient - driving their kids to bad influences...the list could go on and on. Stations like K-LOVE must be allowed to stay on the air. It is in the best interest of our community, our country, and our world.

Thank You
